

LGBTQ.bcerac.ca

There is an ever increasing number of digital resources that can be used to support teaching and researching LGBTQ issues.

Many digital resources are available within the BC Digital Classroom, including encyclopedia articles, biographies, novel reviews, periodicals, and magazines.

ANYTIME, ANYWHERE ACCESS

Value Added

The BC Digital Classroom website

The BC Digital Classroom website supports the implementation of this broad collection of classroom resources.

The website includes links to vendor information and resources. Curriculum correlations have been set identifying where the value for each grade level is identified, K through 12.

Your BC Digital Classroom Collection toolset

The website has been created to meet the needs of students, teachers, Districts, and schools.

The Access page provides a one-stop access point to all the resources in the core collection, with product details and vendor information.

The Professional Support page provides information on how the Professional Learning Team is supporting schools and districts, including a list of suggested presentations.

The Vendor Support page provides contact information and specific vendor implementation toolkits.

The Resources page provides ideas and resources for making the BC Digital Classroom easier to utilize in your District.

Something Valuable for Every Age Group

Professional Learning Team

ERAC provides support to districts in many forms including: planning meetings, small group training, professional development presentations, and email support. The Professional Learning Team has developed a series of standard presentations that we can customize to meet your districts unique needs.

here we are!

New Curriculum

A goal for the Professional Learning Team is to provide an extra layer of support for teachers, schools and districts using the BC Digital Classroom to be the information source for topics in the new Curriculum, including highlighting connections to support integrating Aboriginal connections within the resources.

Early World of Learning provides many opportunities for younger students to explore language and learning through activities, songs, stories, and reading.

K - 2

The **WorldBook Online** collection provides differentiated access to encyclopedic information and a variety of ways to interact and access it.

3 - 9

A unique subset of World Book Online is **Science Power**, with a wide array of Science Learning Activities provided at two reading levels.

3 - 6

National Geographic Kids (NGK) provides access to years of NGK magazines and other publications.

5 - 7

Passport to the Internet provides Internet safety learning in an engaging game interface.

4 - 7

EBSCO databases are provided with grade level focus.

Each of the three databases searches millions of primary and secondary source documents, including hundreds of magazines. Reading levels are selectable through the advanced search functionality.

Also offered through **explora**
An EBSCO Experience

3 - 7

8 - 12

KnowBC is a set of BC-focused encyclopedia and print resources.

7 - 12

Gale databases with specific 'In Context' focuses. Each has a curricular focus. All three databases can be searched through the Power Search option.

8 - 12
